Healthmark Industries Offers the TEMP-USB-TP and the TEMP-USB-TH to its ProFormance Line

Fraser, MI September 16, 2014 - Healthmark has announced the addition of two new temperature and humidity data loggers to their line of ProFormance™ monitoring products.

The TEMP-USB-TH measures over 250,000 temperature and humidity readings ranging from -22 to 176F and 0 to 100% relative humidity. It is the solution for monitoring and recording the ambient conditions in temperature controlled areas such as decontam, packaging and prep, sterile storage and in patient procedure rooms.

The TEMP-USB-TP also has the ability to record over 250,000 temperature recordings. Included are two temperature probes that have the ability to measure two temperature sets. This is the ideal solution for monitoring and recording the temperatures of warming cabinets, refrigerators, manual and ultrasonic baths. Anywhere conditions require the use of temperature probes.
