Protect Delicate Instruments with Silicon Mesh Covers

Fraser, MI, October 15, 2015 - Healthmark Industries has announced the addition of the Silicone Mesh Covers to its ProTech™ Instrument Tray line. The material is made from silicone; two mesh covers that have a flexible frame, and two possessing a stainless steel frame for added weight. These latex-free blue mesh covers are manufactured to protect delicate instruments during washing by covering baskets in order to restrict movement of medical devices during mechanical cleaning. Available in different sizes, the silicone mesh covers are heat resistant up to 275°.
