Support Yourself with The Adjustable Back Brace with Thermo-Pad

Fraser, MI, January 12th, 2017 - Healthmark has announced that they have added the Adjustable Back Brace with Thermo-Pad to its Personal Protection Equipment accessory product line. Designed to provide lower-back support for healthcare professionals on the move, the Adjustable Back Brace with Thermo-Pad helps relieve discomfort by stabilizing the sacrum and lower spine.

Manufactured from a mixture of polyester, nylon and spandex, the back brace is equipped with a removable Thermo Pad that retains body heat in order to provide warmth for aching muscles, joints, tendons and discs. The back brace is made with a reinforced back panel that has eight flexible support stays that shape to the users back while providing lumbar support, elastic side panels with contact closure and adjustable to fit hips from 28 to 50 inches (71.1 – 127 cm).
