Healthmark Offers TOSI Device for Sterile Processing

Written by Jaimie Oh | October 02, 2012

Social Sharing [f](#) [t](#) [v](#) [p](#) [in](#) [g+](#) [0](#)

Healthmark offers an effective device to provide sterile processing professionals with a consistent, repeatable, reliable method for evaluating the cleaning effectiveness of their automated instrument washer.

The TOSI is dried blood soil on a stainless steel coupon. The plate is mounted in a plastic holder with a graduated gap. This device aligns with FDA, AAMI, AORN and other regulatory recommendations for a surrogate testing device.
