Healthmark Industries is pleased to invite you to attend a FREE upcoming Oregon State LIVE In-Person/Virtual Event on **Saturday, August 28th from 8:00am to 12:00am PST at Providence Willamette Falls Community Center 519 15th St, Oregon City, OR 97045.**

Please register for in-person or if you are attending virtually. In-Person slots are first come, first serve and space is limited. You will receive **3-Hour CEUs** good for IAHCSCMM, CBSPD, Nursing, and CBIC for IP Professionals. If attendees want to get together in a group meeting in a different location, please email crojo@hmark.com to receive a special sign-in sheet.

When registering use your personal email, so you can retrieve/have access to your confirmation email in the beginning/during the webinar and must have your cell phone for in-person. After registering, you will receive a confirmation email containing information about joining the webinar. If you are using a work email, there may be security or policy restrictions from your facility restricting outside emails and you may have to use your personal email. You may want to look in your "Junk Email" folder, since confirmation emails can end up there.

Healthmark Presenters:

Cheron Rojo, Clinical Education Specialist
John Whelan, Clinical Education Specialist

Agenda:

8am to 8:15am Introductions

- **8:15am to 9:15am "Hot Topics in Endoscopy Reprocessing" John Whelan**
 - Discuss the key provisions and recommendations from ANSI/AAMI ST91, SGNA, AORN Guidelines.
 - Identify best practices in reprocessing of flexible endoscopes.
 - Discuss how various methods of cleaning verification and surveillance testing can reduce Hospital Acquired Infections (HAI) and Surgical Site Infections (SSI), and help to determine if an endoscope is patient ready.

9:15am to 9:30am Break

- **9:30am to 10:30am "Visual Inspection of Surgical Instruments" Cheron Rojo**
 - Define optical inspection.
 - Review benefits of enhanced optical inspection.
 - Review methods for enhancing optical inspection.
 - Demonstrate how enhanced optical inspection can expose inadequate cleaning and damage.

10:30am to 11:00am Break Vendor Exhibit

- **11:00am to 12:00pm "C.H.I.P. Tips Decontamination Edition" Cheron Rojo**
 - Review Sterile Processing tips in everyday tasks in the decontamination area
 - Understand the importance of handling instrumentation and equipment within your department on the decontamination side
 - Reinforce the basic technical principles that are used in the decontamination area
 - Understand the impact that standards and guidelines have in a properly functioning department within decontamination area that processes instrumentation and medical devices

12:00pm Closing Remarks
