## **Healthmark, A Getinge Company Offers Sterile Processing Week Giveaway!**

October 8, 2024 Fraser, MI - Healthmark, A Getinge Company has announced that they are giving away a bottle of XEN Xcelerate during SP week to celebrate and recognize all the hard-working Healthcare Professions that are dedicated to patient safety all year round!

To receive your complimentary bottle, click on this link below: <https://www.hmark.com/xen-xcelerate-complimentary-bottle-request/>

XEN Xcelerate is a ready-to-use foam spray that requires no dilution, maximizing usability when time is tight for healthcare professionals.

It kickstarts cleaning at the point of use, allowing the XEN sterile processing workflow to begin before instruments even reach the SPD, providing your staff with a better starting point in the manual sinks. Chemically designed to support the cycles of washer-disinfectors, Xcelerate is applied in the OR or the ED to begin the process of decontamination. Early treatment reduces the risk of biofilm formation and helps prevent corrosion.

Hurry, this limited time offer and only available while supplies last!

### ***About Healthmark, A Getinge Company***

*Since 1969, Healthmark has developed and marketed innovative solutions to aid healthcare facilities in their delivery of surgical instruments and other lifesaving medical devices to patients. Healthmark Industries' mission is to continue to innovate, continue to support, and continue to serve the healthcare provider industry and support services that make it possible to deliver quality healthcare.
